San Nicolas Had It's First Steelpan Tuning Workshop

On Monday September 23, 2019, at Skol di Arte took place the "Steelpan Tuning Workshop", organized by the Aruba Panman Foundation, in collaboration with Unoca. The workshop was conducted by Intonation Specialist /Tuner Mister Andy Neils. Mister Neils is from Trinidad and Tobago who is a tuner for big bands (140 -piece band) in Trinidad and Tobago.

Steelpan sounds are unique, warm and sophisticated and makes a deep impression. That is why tuning the steelpan is

important. Actually the late Mister Edgar Connor was one of the last persons that tuned steelpan on a high level of quality. Knowing that Aruba Panman Foundation, together with Unoca decided to give the workshop concern.

This in order to give the community of Aruba the opportunity to learn the tuning of steelpan on a high level.

Local musicians, steelpan leaders, and steelpan performers were present at the workshop. The interest for the steelpan tuning was large and focused on the art of steelpan tuning, wanting to improve the knowledge of this, by those present.

7 Companies Gave in Their Bid To Build a New KIA(Jail)

7 different construction companies gave in their bids to get a chance to be the one to get the contract to build a new jail, one of our questions are? will this be in San Nicolas again? are all we going to keep getting is just negative buildings? we deserve better if this is the case.
